WORK EXPERIENCE

Automation Specialist

OS Architect

📅 January 2022 - July 2022

📍 Montreal, QC

OS Architect invents custom automated solutions with legacy systems, CRMs and APIs.

- Built custom workflow automation systems using low-code/no-code tools and APIs
- Bug fixes, troubleshooting, and on call help for custom built solutions based on client's current workflow from scratch. Touched Google Data Studio and Google Analytics
- Technologies used: **HTML & CSS, WordPress, Google Analytics, Data Studio, Asana, Jira, make.com, automate.io**

Office Administrator

L'hôpital Vétérinaire General

📅 July 2022 - November 2022

📍 Montreal, QC

- Database administration, organizing and fixing files accordingly
- Multitasking and prioritizing tasks effectively
- People coordination & client management

Teacher's Assistant

Open Minds Education Center

📅 January 2017 - January 2020

📍 Macau SAR, CN

- Provided EQ and IQ building activities for children ages 3-6
- Tutored on subjects such as Math, English, Science, and Art using *Montessori*
- Sales, marketing and customer-support as well as assistant to manager in logging transactions

EDUCATION

Full Stack Web Development

Le Wagon Montreal Batch #1038

📅 October 2022 - December 2022

Google Project Management Certificate

Remote

📅 January 2022 - June 2022

React

Python

Ruby

Ruby on Rails

Figma

SQL

- **OOP, MVC, Ajax, JSON, REST**
- **SCRUM** and *Agile Management*
- Wireframe Creation
- CRMs (**Notion, Asana, Trello, JIRA**)

PROJECTS

CLIMBARK- Ongoing (November 2022 - present)

www.climbark.com

- The idea is to scrap the book that we, rock climbers use outdoors and instead have it all in one phone app.
- Log routes and track your climbs. It recommends routes according to your level and can recommend routes near you.
- Technologies used: **Ruby, Ruby on Rails, Javascript, Pundit, HTML & CSS, Geocoder, Heroku**

OneForAll (Superpowers) - November 2022

<http://oneforall.herokuapp.com/>

- I created this site with my friends, cloning the idea of Airbnb where you can rent and rent out superpowers. Book it according to when you want and have a list of availabilities.
- Looking to sleep with eyes wide open or to be fit without going to the gym? OneForAll is for you.
- Technologies used: **Ruby, Ruby on Rails, Javascript, Pundit, HTML & CSS, Geocoder, Heroku**

Job Hunting Oracle - May 2020

<https://drive.google.com/file/>

- Created a way to keep track of the latest job postings you're interested in from different job sites through email and SMS
- It refreshes every 3 hours and sends you emails about the keywords you used to search for jobs.
- Technologies used: **make.com, json, HTML & CSS, monday.com**

LANGUAGES

- English & Tagalog (fluent)
- Chinese & Portuguese (daily)
- French (A.2)
